Dear Mr. McMahon,

Lael Lucia

Amazed. Inspired. Grateful. That's how your generosity makes me feel. Roosevelt K-8 School educators identified a need for new technology and software programs and enrichment opportunities. Your generous donation was crucial to ensuring that all students at the Roosevelt School have equal access to software programs that that will improve academic achievement, as well as afterschool enrichment activities. Thank you!

We were able to highlight McMahon Plumbing and Heating's bronze sponsorship during our April 6 FUNdraiser where we welcomed more than 150 people who also support our school. Thanks to you and the funds raised through the auction, we were able to surpass our fundraising goal of \$15,000. As a donor to our school, you're a part of something really special- you're a part of our community and you make everything we do possible.

If you have any questions about your support or our school, give Lynda-Lee Sheridan a call at 617-635-8676--- we'd love the opportunity to share more information about the impact of your support and the beneficiaries of your generosity.
